PROFESSIONAL SUMMARY

IT Support and Cybersecurity professional with hands-on experience in troubleshooting, customer support, documentation, and operational support through technical projects, Google IT Support and Cybersecurity certifications, and a minor in Computer Science from New York University. Skilled in macOS, Windows, Linux, networking, Python, SQL, security monitoring, and incident response.

Bringing a unique background spanning professional music performance, education, and hospitality, with extensive experience supporting diverse customers, collaborating within high-performing teams, and solving problems in fast-paced, high-pressure environments. Recognized for strong communication, attention to detail, adaptability, and a proactive approach to identifying, resolving, and mitigating technical and operational challenges. Passionate about leveraging technical skills alongside a proven customer-focused mindset to support users, strengthen security, and contribute to organizational success in IT and cybersecurity roles.

CAREER EXPERIENCE

Cybersecurity & IT Support Portfolio | HTML, CSS, JavaScript

Portfolio: <https://theblueviolin.github.io/Cybersecurity-IT/>

- Developed a browser-based cybersecurity portfolio featuring SOC monitoring, phishing detection, network security, help desk ticketing, and role-based access control simulations.
- Built a SIEM-style log analysis dashboard that generates authentication logs, identifies suspicious IP activity, and detects potential brute-force attacks using event correlation techniques.
- Created phishing detection and network monitoring tools that analyze email indicators, classify port exposure risk, and generate remediation recommendations.
- Designed IT ticketing and RBAC systems that simulate incident management, troubleshooting workflows, user permissions, and least-privilege access controls.

Freelance Violinist and Teacher | 2020–Present

- Extensive experience in leadership roles (Concertmaster and Principal Viola) coordinating teams under strict deadlines and high-pressure conditions.
- Successful mentorship leading to student acceptances into UC Berkeley and Johns Hopkins University. Developed strong communication, problem-solving, documentation, and attention-to-detail skills.
- Substitute with professional orchestras including Las Vegas Philharmonic and Arizona Opera.

Librarian Intern | Festival Napa Valley | 2026

- Prepared and supported iPads, printers, and digital music platforms in live performance environments.
- Troubleshoot technical issues, documented operational updates, and provided time-sensitive support to musicians and staff. Maintained a proactive and positive attitude whilst assisting musicians.

Bartender and Cashier | GEN Korean BBQ | 2023

- Prepared beverages on demand and maintained inventory readiness in a fast-paced environment.
- Managed cash, digital, and sales transactions. Reconciled discrepancies, and maintained operational records.
- Trained new employees and resolved customer issues in a fast-paced environment.

EDUCATION/CERTIFICATIONS

Google IT Support Professional Certificate (2026) and Google Cybersecurity Certificate (2026)

M.M., Violin Performance | California State University, Long Beach (2026)

B.M., Violin Performance, Minor in Computer Science | New York University (2020)
